

HONG KONG & SHENZHEN PARTNERSHIP TRIP

February 1, 2006 – Indianapolis, Indiana – ***Teleos announces a commercial partnership trip to Hong Kong, Shenzhen and surrounding areas through February and March of 2006.*** Closely following the formation of the new company, Teleos will be launching its business and services during an upcoming trip to Hong Kong and the surrounding area within Shenzhen.

Says Raymond Wolff, Managing Director of Teleos, “The purpose of our next trip is to advance our relationship with government agencies, trading partners and manufacturers who possess unique technologies with capabilities that represent compelling opportunities within the North American market. Industries of interest to us include MP3/MP4 players, advanced portable GPS systems and a variety of biotechnology areas.”

Teleos offers consulting services ranging from business plan development to formal product design review including code and regulatory compliance analysis with North American agencies as diverse as the Underwriter’s Laboratories (U.L.), Food & Drug Administration (F.D.A.) and NSF (National Sanitary Foundation). The company also provides analysis of sales and distribution channels to market, including a review of the most efficient mechanisms for accessing retail or industrial distribution customers.
